The timing and character of distributions for federal income tax purposes are determined in accordance with income tax regulations which may differ from GAAP. As such, all or a portion of this distribution may be reportable as taxable income on your 2015 federal income tax return. The final tax character of any distribution declared in 2015 will be determined in January 2016 and reported to you on IRS Form 1099-DIV.

The amounts and sources of distributions reported in this 19(a) Notice are only estimates and not for tax reporting purposes. The actual amounts and sources of the amounts for tax reporting purposes will depend upon the Fund’s investment experience during the remainder of its fiscal year and may be subject to changes based on tax regulations. The Fund will send you a Form 1099-DIV for the calendar year that will tell you how to report these distributions for federal income tax purposes. The Fund estimates that it has distributed more than its income and net realized capital gains; therefore, a portion of your distribution may be a return of capital. A return of capital may occur for example, when some or all of the money that you invested in the Fund is paid back to you. A return of capital distribution does not necessarily reflect the Fund’s investment performance and should not be confused with ‘yield’ or ‘income.’

Presented below are return figures, based on the change in the Fund's Net Asset Value per share ("NAV"), compared to the annualized distribution rate for this current distribution as a percentage of the NAV on the last day of the month prior to distribution record date.

While the NAV performance may be indicative of the Fund's investment performance, it does not measure the value of a shareholder's investment in the Fund. The value of a shareholder's investment in the Fund is determined by the Fund's market price, which is based on the supply and demand for the Fund's shares in the open market. **Shareholders should not draw any conclusions about the Fund's investment performance from the amount of this distribution or from the terms of the Fund's Managed Distribution Plan.**

Furthermore, the Board of Trustees reviews the amount of any potential distribution and the income, capital gain or capital available. The Board of Trustees will continue to monitor the Fund's distribution level, taking into consideration the Fund's net asset value and the financial market environment. The Fund's distribution policy is subject to modification by the Board of Trustees at any time. The distribution rate should not be considered the dividend yield or total return on an investment in the Fund.
